

Dr. Marcin Abram

email address: mjabram@usc.edu,  <https://www.linkedin.com/in/marabram/>

PROFESSIONAL EXPERIENCE

Visiting Assistant Professor

August 2023 – (expected) May 2024

at the University of Southern California, Los Angeles, CA, USA

Research Focus: Federated learning protocols and continuous learning. Scientific machine learning.

Supervisory Soles: One Ph.D. project, two capstone undergraduate projects, offering a semester-long research internship for eight students.

Visiting Researcher

July 2020 – (expected) May 2024

at the USC Information Sciences Institute (ISI), Los Angeles, CA, USA

(1) Member of the ISI's *Machine Intelligence and Data Science* (MINDS) group.

Research Focus: Scientific machine learning, self-supervised learning, scientific data representation.

Results: A sponsored research award (\$20,000). Publication in a prestigious Nature-partner journal.

(2) Member of the *Secure Heterogeneous Learning Federation with Information-Theoretic Guarantees*.

Research Focus: Distributed machine learning, federated learning protocols.

Results: We have developed a novel consolidation schema offering improved robustness and efficiency.

Postdoctoral Scholar

July 2020 – August 2023

at the University of Southern California, Los Angeles, CA, USA

Research Focus: Knowledge distillation, out-of-domain generalization, neural networks interpretability.

Leadership Roles: A group leader for the *Emulating Quantum Dynamics with Neural Networks* project. Supervising work of two Ph.D. students. Scientific workshop organization. Mentoring several students.

Management Experience: Ph.D. Qualifying Exam and Ph.D. Screening Exam Committees.

Results: A publication in *Frontiers in Materials*. One student graduated with a Ph.D. title.

Lead Research Scientist

July 2018 – May 2020

at Fetch.ai, Cambridge, UK

Research Focus: Developing decentralized consensus protocols.

Leadership: Leading group of four researchers. Representing the company in meetings with investors.

Results: Two articles, one commercial patent, and presentations at several conferences.

Technology: TensorFlow, Docker, Distributed Ledger Technology, Secure Multi-Party Computation.

Machine Learning Engineer

August 2016 – June 2018

at TypeScore, London, UK

Responsibility: Raw data collection. Machine learning model selection, training, and evaluation.

Results: Fully automated data pipeline. Our AUC & F1 scores outperformed the state-of-the-art results.

Technology: Python, Tensorflow, Docker, MongoDB, Elasticsearch, Google Cloud, RESTfull API.

EDUCATION

Jagiellonian University, Kraków, Poland

Ph.D. in Physics

2011 – 2016

- ◇ In my studies, I focused on developing high-performance computing techniques and numerical methods for high-fidelity scientific simulations. As a result of my work, I published six peer-reviewed articles in leading international journals and presented the results of my work at several international conferences.
- ◇ Dissertation title: *Nonstandard Representation of Correlated-Fermion Models and its Application to Description of Magnetism and Unconventional Superconductivity*. Degree conferred with Distinction.

B.Sc. in Computer Science (3-year program)

2009 – 2012

- ◇ I have obtained this degree independently from my M.Sc. in Physics. The outcomes of my final project contributed to my group's research and resulted in a peer-reviewed publication in a prestigious international journal.

M.Sc. in Theoretical Physics (5-year program)

2006 – 2011

- ◇ Realized as a part of the interdisciplinary Studies in Mathematics and Natural Sciences program, extending the standard offering of the physics program with additional classes from the math, computer science, and natural science curricula.
- ◇ Dissertation title: *Selected methods of correlated particles applied to atomic systems in optical lattices*.

FELLOWSHIPS, SCHOLARSHIPS, AND MERIT AWARDS (SELECTION)

A sponsored research award (\$20,000)	2021
A sponsored research award for the <i>Using Machine Learning to Understand Material Science</i> project.	
Outstanding Reviewer Award	2020
Awarded by the IOP Journal to the top 1% of the reviewers in a given year.	
The Exceptional Doctoral Performance Award	2013 – 2015
Scholarship: Interdisciplinary Ph.D. studies in English Program	2012 – 2015
Scholarship: Study Abroad	January – June 2010
Erasmus Scholarship in Niels Bohr Institute in Copenhagen, Denmark.	
Academic Achievement Scholarship	2008 – 2009
Finalist (top 60 in the country) in the LV Polish Physics Olympiad	April 2006
Finalist (the 9th place in the country) in the XLIX Polish Astronomy Olympiad	March 2006

RELEVANT TEACHING EXPERIENCE (SELECTION)

◇ <i>Electricity and Magnetism</i> , University of Southern California, Los Angeles, USA	Fall 2023, Spring 2024
◇ <i>Statistical Physics</i> , University of Southern California, Los Angeles, USA	Spring 2023
◇ <i>Classical Mechanics</i> , University of Southern California, Los Angeles, USA	Fall 2020, Fall 2021, Fall 2022
◇ <i>Machine Learning for Data Science</i> , University of Southern California, Los Angeles, USA	Spring 2021
◇ <i>Physics Laboratory</i> , Jagiellonian University, Kraków, Poland	Spring 2015
◇ <i>Statistical Physics</i> , Jagiellonian University, Kraków, Poland	Spring 2013, Spring 2014
◇ <i>Physics with Biophysics Elements</i> , Jagiellonian University, Kraków, Poland	Spring 2021
◇ <i>Physics Classes for Gifted High-School Students</i> (Outreach Program), Kraków, Poland	2012 – 2014
◇ <i>Math tutor for the Center for the Blind and Visually Impaired</i> , Kraków, Poland	2012 – 2014

ADDITIONAL SERVICE (SELECTION)

Reviewer for *New Journal of Physics* (3), *Journal of Physics: Material* (3), *Journal of Physics: Condensed Matter* (6), *Physica Scripta* (1), *Machine Learning: Science and Technology* (7), *IOP SciNotes* (2) and, *Superconductor Science and Technology* (2).
